Notes:

(*) On the basis of the Concept of Operations (CONOPS) of the tested security scanner, provided by the manufacturer, the security scanner performance was tested for a given type of operations:

Type A: Security scanner with automatic threat detection and indication of the location of detected objects on a stick figure.

Type B: Security scanner with a human reviewer to analyse the image and to indicate the location of detected objects.

(1) Information on configuration was provided by the equipment manufacturer as part of the testing process.
